To Whom It May Concern:

Mark Weghorst worked closely with our organization from June 1998 through March 2001, providing excellent pressure washing services to our existing customer base as well as the communities we serve. He is thorough and concerned with quality. He always worked with us to provide quick resolution to any problems that arose. He is responsive and caring.

It is our desire that he continues to prosper and thrive in any endeavor he undertakes and can assure that he will be an asset to any organization he joins.

Jeff Oravec
Branch Manager
